

Kandi bead chart - flat brick stitch

18 positions per row x 12 rows | 216 beads

Alternating rows are shifted by half a bead. Row 1 is at the bottom.

Letters identify colors. Outlined blank positions contain no bead and are not counted.

	A	#F2EAD8	128 beads
	B	#285548	32 beads
	C	#D98142	22 beads
	D	#90AAA0	30 beads
	E	#E8B7BB	4 beads
	F	#647EAB	0 beads
	G	#A48EB5	0 beads
	H	#443B42	0 beads

Read your chart

Columns count bead positions from the left within each row, not vertical bead stacks.

Sections run left to right in bands, beginning with the bottom band. Keep pages upright.

Use global row and column numbers to follow a complete row across page sections.

Print with Fit on Letter or A4. Symbols do not represent actual bead dimensions.

Scope and physical review

A color-placement chart only: no thread path, starting instructions, joins or wrist sizing.

Not a tubular peyote, multi-stitch cuff, loom or Perler pattern.

Erased beads can leave gaps or disconnected parts. Review shaping with an experienced beader.

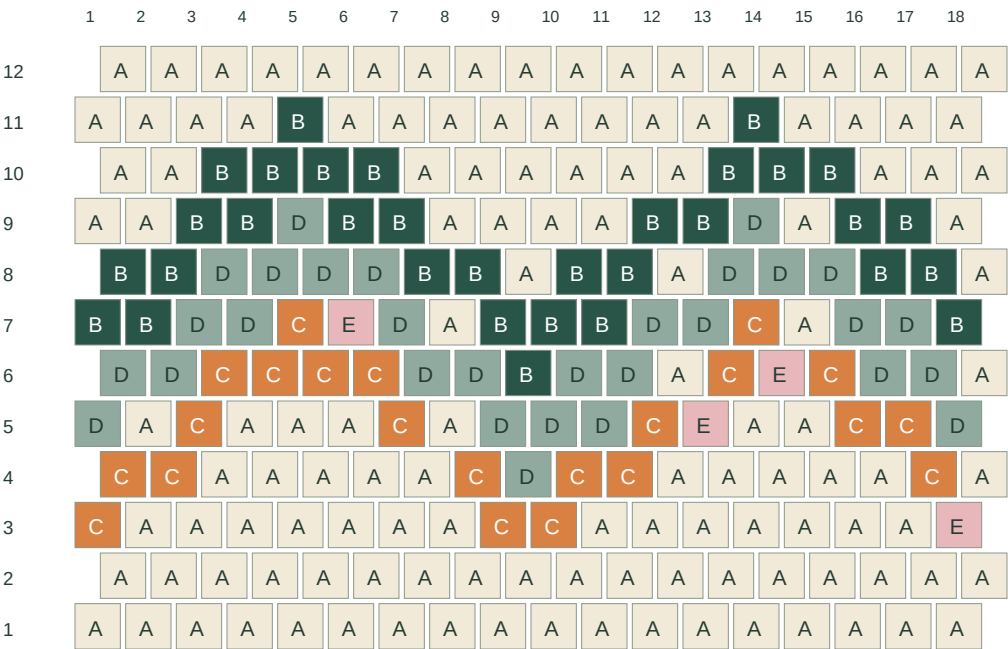

Colors are screen approximations, not verified manufacturer or product codes.

Physical sample and print validation are pending. This is a local digital draft.

Method reference: The Beadworkers Guild, Brick Stitch Basic Stitch Instructions.

Kandi chart - section 1 of 1

Columns 1-18 | Rows 1-12 | Half-bead row offset

Each letter is one bead. Blank outlines are empty positions; check gaps before stringing.

Rows are counted from the bottom. Column labels refer to positions within each row.

Half-bead offsets use global row numbers and continue unchanged on adjoining sections.

Read the color key and limitations on page 1. Physical sample validation pending.
