

Two coaster layouts to prototype

Crossed-ribbon tile

24 x 24 positions | 576 beads | page 2

Kiwi-slice disk

28 x 28 positions | 540 beads | page 3

WHAT HAS BEEN CHECKED

Grid dimensions and bead quantities are calculated from the attached drawings.

Color labels describe the chart palette, not manufacturer shade codes.

These square-grid charts are enlarged references, not life-size board overlays.

WHAT STILL NEEDS A PHYSICAL SAMPLE

Record bead product and size, board model, and the actual fusing process.

Measure the cooled sample, then document its underside and backing.

Photograph the finished top, edge, underside and measurement with a ruler.

Check the intended vessel base against the real footprint; record observed limits.

No heat tolerance, waterproofing, grip or surface protection has been established.

An adult should follow the bead manufacturer's fusing instructions.

US Letter pages; use fit-to-page for an A4 reading copy.

C Cream: 334

N Navy: 92

R Coral: 70

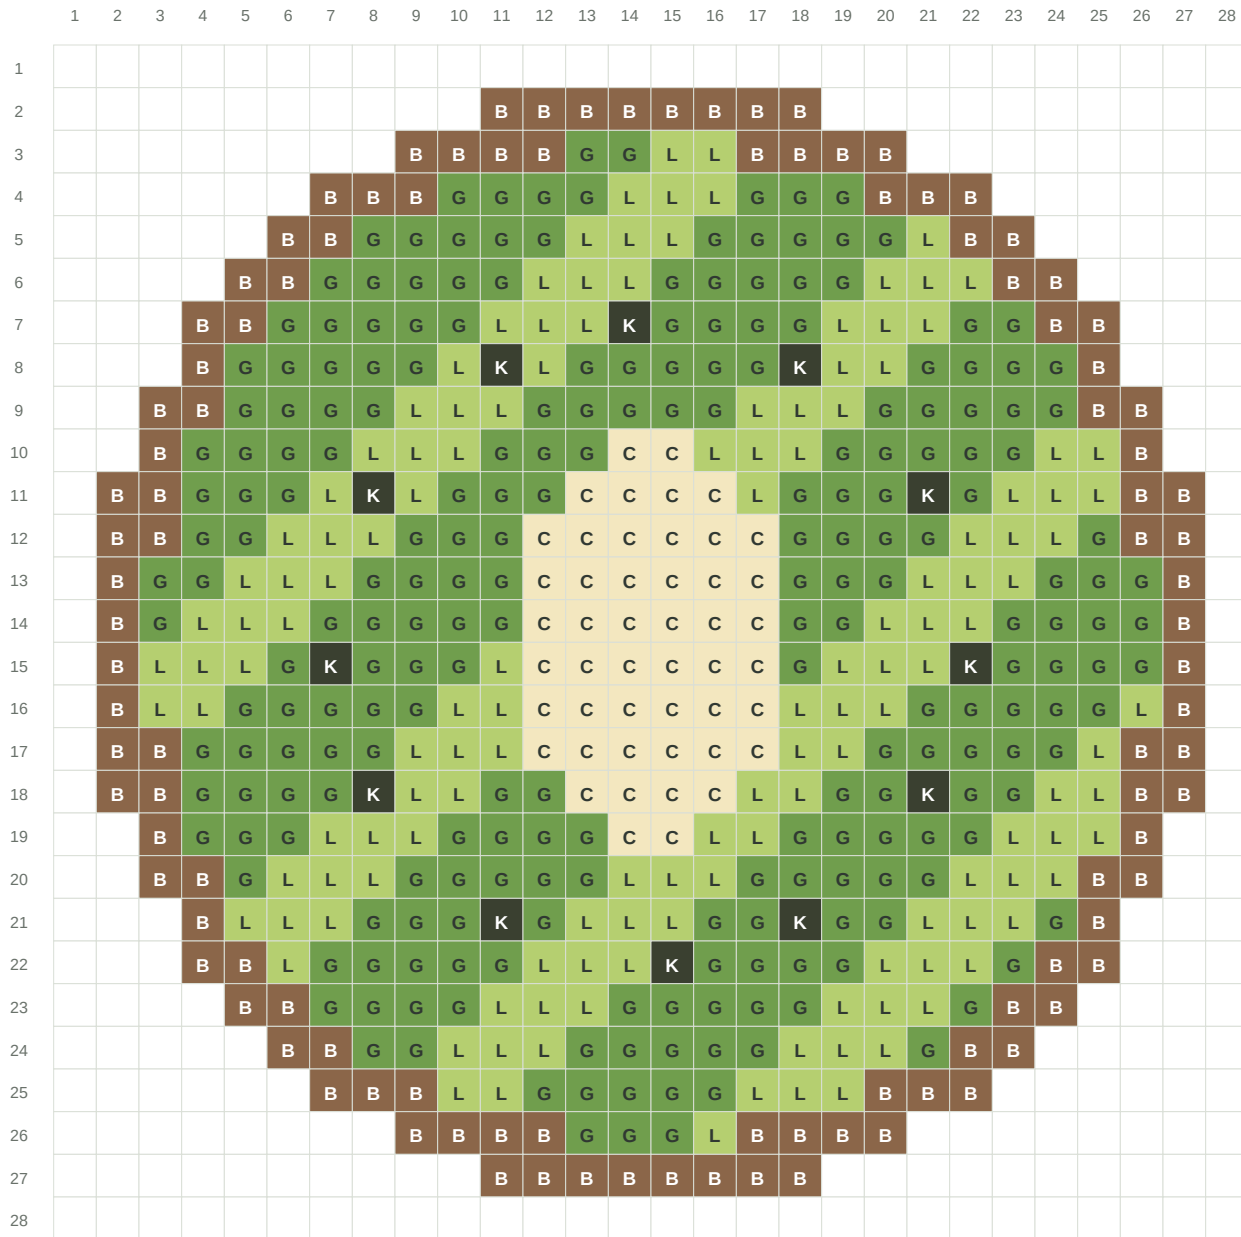

S Sage: 80

Dimensions after fusing and backing are not yet measured.

Lettered cells take beads; unlettered cells stay empty.

Kiwi-slice disk

28 columns x 28 rows / 540 beads

B Brown: 108

C Cream: 48

G Green: 231

K Seed dark: 12

L Light green: 141

Dimensions after fusing and backing are not yet measured.

Lettered cells take beads; unlettered cells stay empty.
